

Requirements:

- We are seeking musicians to perform Gino Paoli's 'Il Cielo In Una Stanza', **singing and playing the organ simultaneously**. Both singers who can play piano and pianists who can sing are encouraged to apply. Additional training will be given to those not currently organ-trained.
- Successful applicants will be highly committed and be experienced in singing as well as proficient on the piano/organ.
- You must be willing to perform in front of members of the public and be comfortable with visitors and organisers filming and photographing during the performance. We also plan to live-stream a performance via Ikon's YouTube channel.
- Please also be aware that this project will demand considerable stamina from performers, as they will be required to play and sing continuously for two sittings of up to 90 mins per sitting, with a break between.

Applications:

- To apply for the position, please send the following to sam@echo-choir.com
